such an starming condition is seeight to be Justified by Street-Cleaning Commissioner Andrews on the score of the Barney Dumping Company's strike. This strike was brought about by the action of the Barney Company in reducing the wages of the dumping-scow capitalist from \$15 tr \$12 per week. The thritten captains who struck afford the Berney Dumping Company an opportunity to save \$39 every week.

At Supervisor Delehanty's office an "Evening World" reporter was told that it was more than likely that criminal proceedings would be instituted against the Barney Dumping Company, under the new law, which makes it impersible for the Company to hastiry its violations on the heretofore very common plea of "accident." Besides, a fine or imprisonment or both, which may result from such proceedings, it is also probable that a civil suit will be itstituted for damage done to the harber. ___
